**The Role of the
African Diaspora
and African States
in the Struggle Against
White Minority Rule in
South Africa**

Using the history of Pan Africanism as his prism, Dr. Magubane will link developments within the African American community and within both the African community in South Africa and in Africa in general. Specifically he examines the close identification with each other's political aspirations that have developed between Africans in the Americas and their "kith and kin" in South Africa.
