

## Mice, Monkeys and Man

### The Ethical and Practical Problems of Animal Use in Biomedical Research

**Colin  
Blakemore**

*Director, Medical Research  
Council Centre for Cognitive  
Neuroscience, Oxford University*

**March 5, 2003  
Wednesday 7:30 pm**

Auditorium  
Smith Recital Hall  
805 S. Mathews Avenue, Urbana  
University of Illinois at Urbana-Champaign

Colin Blakemore is both a distinguished neuroscientist and one of the leading proponents of public understanding of science. Professor Blakemore examines the moral basis for biomedical research, and argues for a utilitarian approach to the use of animals, human subjects and embryos in research. It is essential that the moral decisions that underpin research should be informed by public debate, based on proper understanding.

*Sponsored by:*  
Department of Animal Sciences  
Department of Molecular and Integrative  
Physiology  
Neuroscience Program

*In conjunction with:*  
College of Agricultural, Consumer and  
Environmental Sciences  
Department of Cell and Structural Biology  
Department of Entomology  
Department of Philosophy  
Department of Psychology  
Department of Veterinary Bioscience  
Neuronal Pattern Analysis Group, Beckman  
Institute

*Series support provided by:*  
Office of the Chancellor  
Office of Equal Opportunity and Access  
Office of the Provost and Vice Chancellor for  
Academic Affairs  
Office of the Vice Chancellor for Research  
Office of the Vice Chancellor for Student Affairs  
The Center for Advanced Study  
George A. Miller Programs Committee  
Peggy Harris Memorial Fund  
The Council of Deans  
The Graduate College
