11:00am–11:45am

Julie Cidell

CAS Associate 2020–21, Geography & Geographic Information Science

Corridors and Confluences: Four-Dimensional Spaces of Distribution along and around the Des Plaines-Kankakee River Confluence

The area near the confluence of the Des Plaines and Kankakee Rivers in northeastern Illinois contains the largest inland port in North America. Centuries of flows of water, traders, settlers, and non-humans have defined a corridor that exists

in four dimensions. This paper will discuss the ways this corridor can help us rethink the spatiality and temporality of infrastructure.

Noon–12:45pm

Nicole Riemer

CAS Associate 2020–21, Atmospheric Sciences

Aerosols: Tiny Particles, Big Impacts

Aerosol particles are ubiquitous in the atmosphere and have profound impacts on human health and the Earth's climate. This presentation will show application highlights of the ultra-high-resolution aerosol model that Professor Riemer has

been developing in her research group and with collaborators at the University of Illinois and around the world.

CENTER FOR ADVANCED STUDY

FOOD FOR THOUGHT

This Center for Advanced Study public events series features presentations of research and creative projects by recent CAS Associates and Fellows.

We are delighted to showcase the work of some of our most productive and creative faculty in a series of intellectually and spiritually invigorating presentations.

You are invited to drop in when you can and enjoy a bite to eat while you learn about the exciting projects undertaken by our faculty. A brunch buffet will be provided at all in-person events.

Center for Advanced Study

Levis Faculty Center—Room 210
919 W. Illinois, Urbana
